THE TIMES.

A. M. CLEMENT, Editor.

WEDNESDAY, FEB. 21, 1906

FROM OUR LAWMAKERS.

The extra session seems inevitable, and the necessity would have been avoided if our solons had worked as earnestly on the first week of the session as they are now doing. We don't want apathy, hasty and ill-advised law making. The evil cannot be remedied within two years and this should be remembered well.

We always regret that an intelligent man of the management of our charitable institutions should ever be deemed incompetent. Those in charge should live down suspicion.

The Lawyers' Democratic Club is under fire and there's Lots more ammunitary shooting. Let us hope that no one has been cruel to those in peril of reason.

Senator Claude Pollard is desperately in earnest as he is driving at the evil on fairish, and if he goes down in the fight it will be with colors flying.

The old Confederates have become in for as much of consideration as was promised during the canvass. But platforms and election promises are simply used to get in on—once in they are given back to the vision from which they came.

Five hundred thousand dollars is common school three hundred thousands to roads and the seven hundred thousand is surplus that already been converted into an one hundred thousand debait.

There are few abhorrent Congressmen hid away in the body but as per like "many a gem of purest ray" are hid away in the depths.

Let's go across the street to see a man" had to at get been pass d by the fairest consideration.

The "Social Club" may come in for full share of legislature blows but the "Social Club" is still in high favor.

Private bill's have been crowding to the front, and so long as they do not impede raids on the public treasury no particular harm is done. It would be well, however to have them bound in separate volumes and not mixed up with the general run of the laws.

Jas. W. Marshall, J. C. Wynn, Samuel W. Williams and others from the 20th district were introduced to the six it will not come as a surprise to Congress, but Carter Glass will meet them on the threshold and be found to be more than worthy their best steel.

The suggestion that Boards of Supervisors should be empowered to have their respective counties properly represented at the Jamestown Exposition, is a good one.

That Commissioners of the Revenues should be required to examine bank assets is a step in the right direction. Banks properly conducted will invite inspection and others should be made to submit to it. How do and know why it is best that our Judges should appoint these officials. The people can be trusted, and now that the tendency is towards allowing the people to vote to decide who shall be United States Senators it looks inconsistent that the chairs should be that they are not to be trusted to name county officers.

The Torrens bill will hange fire and we yet to mind-bone in the Common wealth has been done.

With oysters at 60 cents a dozen on the half shell our solons will $8 a day instead of $4 and while in the average daily working hours of the average legislator certainly not over four hours, and yet some of them are disposed to find fault with coal miners who contend for eight.

The legislator who inaugurates a move to save our forests from destruction will deserve to go to Congress next time, and if, when he is landed there he would do something for our public roads he could command our vote for President.

No well conducted bank will object to a bank examination. It would have the effect of increasing public confidence.

Look After Your Fruit Trees.

We have had numerous inquiries in regard to the use of Kilosal-(Kilo-scale), Cosmol (Coc-sol) and other patent washes of like nature and take this method of replying to enquiries.

On April 22, 1904 an experiment was planned in which caustic soda, Kilosal and Cosmol were used in comparison with the lime-sulphur wash against the San Jose scale. This was very late in the season, just at the time when it should have been most effective, yet we found that the lye washes used strong enough to kill the insects also killed the trees. Kilosal used at a strength of 1 part to 24 parts water did not kill an appreciable number of insects, they being as plentiful on trouble trees as on untreated while the examinations were made in October. Cosmol of same strength was used with same results. From the certain tests, however, at a strength of 1 part to 4 parts water gave very good results in destroying this insect. Either Cosmol or Kilosal, used strong enough to compare favorably with the lime-sulphur in the killing of San Jose Scale will not from tree to different times as much as the lime-sulphur, and cannot be recommended except in a very small way.

We have noticed a number of newspaper notes from people who have used these washes. The results can be determined, which more readily take in the season. The insect inspectors were notified, they will invest as to combat the trees sprayed before the season is over.

Entomologist.

West Buckingham.

The writer has for some time been almost comely to contribute to the columns of the Times. He spend three days last week at the Courthouse under the supervision of Dr. J. Burton Nowlin and received seeming sum-total better. In order to bring a satisfactory result and enable me to be out again it will be few days.

It seems that the action of the Buckingham Medical Society, as it is called, has caused quite a stir among the people. It seems that a number of members of the society have gone into a trust and of course the will necessarily compel the people of the county to form a trust too so as to come to some that meetings of a trust makes the matter to look like a conspiracy. Now we learn that the people are incensed at the action of the Chairman of the Executive Committee of the said Society, as well as the five members of the Executive Committee, and will make a test case of the matter. Now we learn that the people are incensed at the action of the Chairman of the Executive Committee of the said Society, as well as the five members of the Executive Committee, and will make a test case of the matter.

Sick Headache.

This distressing ailment results from a disordered condition of the stomach. All that is needed to effect a cure is a dose of Chamberlain's Stomach and Liver Tablets. In fact, the attack may be warded off or prevented from developing by taking a dose of these Tablets as soon as the first symptom of an attack appears.

ment was novel and unique and it

proved an all 'round success and

over $35 net was realized.

All Run Down

THIS is a common expression we hear on every side. Unless there is organic trouble, the condition can doubtless be remedied. A doctor is the best adviser. Do not dose yourself with all kinds of advertised remedies—in his opinion. More than likely you need a concentrated fat food to enrich your blood and tone up the system.

Scott's Emulsion of Cod Liver Oil

is such a food in its best form. It will build up the weakened and wasted body when all other foods fail to nourish. If you are run down or emaciated, give it a trial: it cannot hurt you. It is essentially the best possible nourishment for delicate children and pale, anaemic girls. We will send you a sample free.

The condition of Mrs. Hallowell is serious.

Mr. Wm. Hall, of Buckingham, in the village to-day.

Mr. and Mrs. Meem Duiguid were guests of Mr. John Shearer here Sunday.

Messrs. Doug. Hancock and Olney Snell were the guests of Mr. J. L. Driskill last Sunday.

The old Wesley Chapel church will be sold on the 28th of this month at 10 a. m. on the church grounds.

The sympathy of our people are with Mr. and Mrs. T. P. Robertson in the death of their two-year-old child, which occurred this morning at their home near Rose Bower.

Mr. L. M. Miller, who now owns the McKinney farm, had the misfortune to let fire get away from him a few days ago, which burned four stacks of oats, the property of Mr. F. W. McKinney.

Morning Star church was burned to the ground Sunday night. We regret this loss, which is heavy upon the colored people of that old congregation.

Miss Nannie Abbitt, who has been spending her vacation here, left last Saturday for Norfolk, where she will resume her duties as milliner for the spring season.

The ladies of Salem Methodist church realized a handsome sum from their supper last Friday night. The exact amount is not known, but it was said to be about $60.

Tobacco Experiments.

Mr. E. H. Matheson, manager of the United States Experiment Station in Appomatox county recently sold the tobacco from three acres of his crop raised last year. This tobacco was raised as an experiment to prove that a farmer could take land of medium productiveness and raise tobacco of good quality and in paying quality per acre, and at the same time, improve the condition of the land; that the same land will produce a better crop of wheat or any other crop than it would have done before it was cultivated in tobacco, and that the land will be in much better condition than it was before he made the experiment.

This Mr. Matheson proposes to do by cultivating the land just as many good farmers do, that is by first thoroughly preparing the land for the crop and then ascertaining what the land needs in plant food for the crop to be raised.

He then furnishes this food in such quantity as will produce the crop in paying quantity and quality and does this by making a preparation composed of some suitable substance as a base for his formula adding the other ingredients in the proper proportion for the crop.

This he puts in the drill a the time for planting.

The three acres that were sold were planted at the same time and on land the same in every respect and of medium quality. On one acre he planted 4,000 hills of tobacco under this he put $5. 00 worth of the best commercial fertilizer, and from it he got 842 pounds of tobacco, which brought $89.93. On the next acre he planted 5,000 hills of tobacco under this he put $15.00 of his preparation; from it he got 1,296 pounds of tobacco, which brought $100 61. On the third acre he had 6,000 hills of tobacco, and under this put $30.00 worth of his preparation. From this acre he got 1,527 pounds of tobacco which when sold brought $287.33 for the 3 acres.

The above figures show very clearly that Mr. Matheson's plan has proven to be a success, and particularly so when it is known that 750 pounds is the average yield per acre for the dark tobacco district of Virginia. This tobacco was sold at the decline in prices. Mr. Matheson will send his formula who will write him at West Appomattox; Va.—Lynchburg News.

For Billiousness and Sick Headache.

Take Orino Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs. Orino Laxative Fruit Syrup cures billiousness and habitual constipation. Do not nauseate or gripe and is mild and pleasent to take. Remember the name Orino and refuse to take any substitutute.

L. E. Smith, Appomattox; W. B. Woodson, Concord; W. C. Nowlin, Spout Springs.

Examinations Postponed.

The examinations of teachers for 1096, have been postponed from March 1, 2, and 3rd, to May 3, 4 and 5th. The subjects for examination will remain the same, as has been advertised for March. Drawing is included for a 2nd grade. All 1st and 2nd grade certificates, that expire this year, can be extended for one year, by the endorsement of division Superintendent and District Clerk, where is used. Further notice will be given in April.

Respectfully,
J. K. HANNAH, Supt.,
Feb. 15, 1906.

Charles Dana Gibson's Most Famous Pictures.

Every one knows Charles Dana Gibson the creator of the "Gibson Girl" and many other famous pen and ink drawings. Every one has heard of his recent decision to abandon pen and ink work, to voluntarily give up an income of six thousand dollars a year from Collier's Weekly, in order to go to Paris and study the art of oil painting for the sake of art alone.

In his chosen field of pen and ink sketches Charles Dana Gibson stands alone. The excellence of his technique, the dryness of his humor and the debth of his pathos have made him familiar to the people of Canada, Australia and England as he is to his fellow countrymen and fellow townsmen in New York.

The New York World is about to publish a series of articles on pen and ink sketches as exemplified in the work of this great American artist, and by special arrangement with Collier's Weekly has obtained a series of ten of Gibson's pictures which illustrate best his versitile art.

These will be issued as a special art supplement to the Sunday World beginning next Sunday, Feb 18. These pictures will be produced in a style never before attempted by any newspaper. They will be printed from copper etchings on an "eggshell finished" art paper, in black line drawing on acream buff backgrounk. Each picture will be on a seperate sheet ten by fifteen inches, just a convenient size. One of the pictures will accompany each issue of the Sunday World for ten Sundays, beginning Sunday, Feb. 18.

If you are already a reader of the Sunday World be sure to put put in your order in advance to your news dealer. If not, give your order to one of your regular news dealer, as the Gibson picture edition is limited. It may be impossible to obtain a copy unless it is bespoken in advance.

If you do not read the Sunday World and have no newsdealer handy, send 75 cents to the New York Sunday World, and the big Sunday edition of that paper, with the Gibson pictures on seperate sheets, will be sent to you each week postage free for ten weeks.

The Sunday World is the greatest of all Sunday papers. Its twelve page colored Magazine Section is of artistic merit and excellence of reading matter, far superior to any of its contemporaries. Then there is a really funny Comic Section, also in colors; a Metropolitan Section containing all the news of the great Broadway of New York; an absolutely unique feature is Sunday journalism; an Editorial Section, non-partisan and impartial, but vigorous and of course, the News Sections, which contain all the news of the world gathered by an army of correspondents.

All these special features and attractions with the Gibson pictures for ten weeks for 75 cents Address the Circulation Department. Sunday World, New York City, N. Y. Please send stamps of small denominations.

Piedmont Business College, Lynchburg, Va. is now offering young people special rates on their courses. Write them for catalogue.

Rose Bower.

Mr. M. F. Kyle, our hustling farmer, has about filled his ice house.

We are sorry to report that Mr R. P. Bryant is on the sick list.

The infant son of Mr. and Mrs. C. E. Lewis, who has had a severe case of pneumonia, we are glad to say is better; we hope little Moss a speedy recovery.

The Dark Tobacco Growers Association, of Robertson's Mill Church will meet Saturday evening at 2 p. m., March 3rd at Airy Hill school house, near Rose Bower. We hope to initiate several new members. All who wish to join will please be on hand. The club will be addressed by President R. E. L. Megginson and also b. Mr. R. C. Wright.

Will let you hear from us again.

Harvey's Gate.

Our school here is progressing nicely under the management of Miss Addie Hunter, who is a fine teacher.

Miss Pearl Jennings was the charming guest of Miss Alma Lewis Sunday.

Mr. Chap Sims left on Saturday for New York, where he will visit his sister, Mrs. Doff.

Misses Addie Hunter and Lizzie Harvey were the guests of Miss Bertha Woolridge on Saturday night.

On the night of the 14th the doors of Mr. W. A. Agee's home were thrown open to the young people and here they danced until the early hours of the morning. The music was furnished by Mr. Wooten and son.

Mr. Frank Woolridge has been teaching the Falling River school for the last ew weeks for his sister.

Let us help you sell that farm.

Startling But True.

People the world over were horrified on learning of the burning of a Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold which could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Willcox, New York.

For sale by J. R. Atwood, Appomattox; R. J. Carter, Prospect; E. F. Glover, Evergreen.

Wanted: by Chicago wholesale and mail order house, assistant manager (man or woman) for this county and adjoining territory. Salary $20 and expenses paid weekly; expense money advanced. Work pleasant; position permanent. No investment nor experience required. Write at once for particulars and enclose self-addressed envelope. DOMER & Co.,
133 Lake St., Chicago, Ill.

Girls Wanted

Apply to Butler-Butler, inc., Cigarette Factory, Seventh and Commerce Streets, Lynchburg, Va.

Good pay to learners and steady work. 3

THE CELEBRATED CALIFORNIA STALLION!

MONTOONA,

No. 20325.

Bred by Major Hollister, Chorro, California. MONTOONA is a beautiful Bay—black points and fine size, style, action, disposition, and very speedy. MONTOONA enjoys a distinction that few horses ever attain, that of being stallions sire having three recorded great brood mares in his pedigree, viz: Madam Powell, dam of Monroe Chief, 2184; and others; Tiffany Maid, dam of Gilbreather, 2224 and others; and Nellie, the dam of Nellie Alto 2234 and Alcantra, 2243. MONTOONA is by Montana, 2178, sire of 4 in the list, 2 sons sire, Monroe Chief, 2184, sold in Chicago for $150,000. MONTOONA descends directly from Hambletian, 10, sire of Mambrino Chief, 11 through both sire and dam and carries the blood of Clay, Mambrino, Patchen, Jr., Mambrino, 65, 1058, 2d dam of the American Trotting Register besides. He also took first premium at the San Louis Obispo (Cal.) Fair as a yearling, and he has taken three first premiums and a sweepstakes. As a two year old signed 2:30. MONTOONA took all the first premiums at the Lynchburg Fairs, and in 1903 went to Petersburg Fair and was driven by the noted race horse man, Bradshaw, and won the 2:30 class and 2:25 class. He was the first premium foal at the Lynchburg Horse Show in October, 1902. In 1903 he won the 2:30 class at Petersburg, Va., and was driven by John F. Taylor, of Staunton, Va.

He is a sure foaler, and is noted for getting fine colts.

Season Commences March 15, 1906.

Will make the Season of 1906 at McKinney's Stable, West Appomattox, Va.

Insurance $10, Season $7.50, Leaps $4. Accident and escape at owners' risk.
